# wear EMOTIONS

## TIME FOR ACTIONS

We live in hectic environments, work, cities, screens, pollution, radiation... Encouraging the emergence of stress and overwhelm. We have lost the essence of a human connection with nature.

## THE NEED OF NATURAL SOLUTIONS

Negative ions (-) are produced in nature spontaneously due to meteorological phenomena, cosmic radiation or weather conditions (storms, lightning, winds, etc.) and by radiation from the earth and many other causes.

When negative charges (-) predominate, it favors relaxation and the good functioning of our organism.

Now this can be reproduced on fabrics to wear the best of nature and fashion.

OUR ADVANCED  
FINISH **EMOTIONS**  
CHARGES FABRICS  
WITH NEGATIVE IONS

## NEGATIVE IONS FOR POSITIVE SENSATIONS

We have created fabrics charged with negative ions that are released throughout the day while in contact with the skin.

This advanced textile solution offers direct well-being benefits.

- **Stress relief**
- **Nervous system regulation**
- **Serotonin activation**
- **Cell metabolism stimulation**
- **Circulation & muscle tone improvement**
